Dear Harold,

Thanks for your 4/27/85; 4/21/85 and enclosures. Good letter to Post. Reagan cannot recognize conscience and that's partly why he doesn't even perceive the magnitude of his insult to the victims of Hitler.

Our pine is white pine and I have indeed faithfully had yearly cleanings of my chimney. Your tips on cleaning, maintenance, and stovepipe alignment are noted and appreciated. We're looking--researching--stove options now.

In the enclosed FBI document, what is an "FD-302 stencil" referred to at the bottom of page one, and why would they put "to be destroyed"? Is this unusual?

Thanks, and best regards,

Phil
